one day

i learned to listen

and

that day

i heard the sounds

of laughter and

of happy people

but, most of all

i heard the Sounds of Central.

now

i try to listen

more often

because

i know

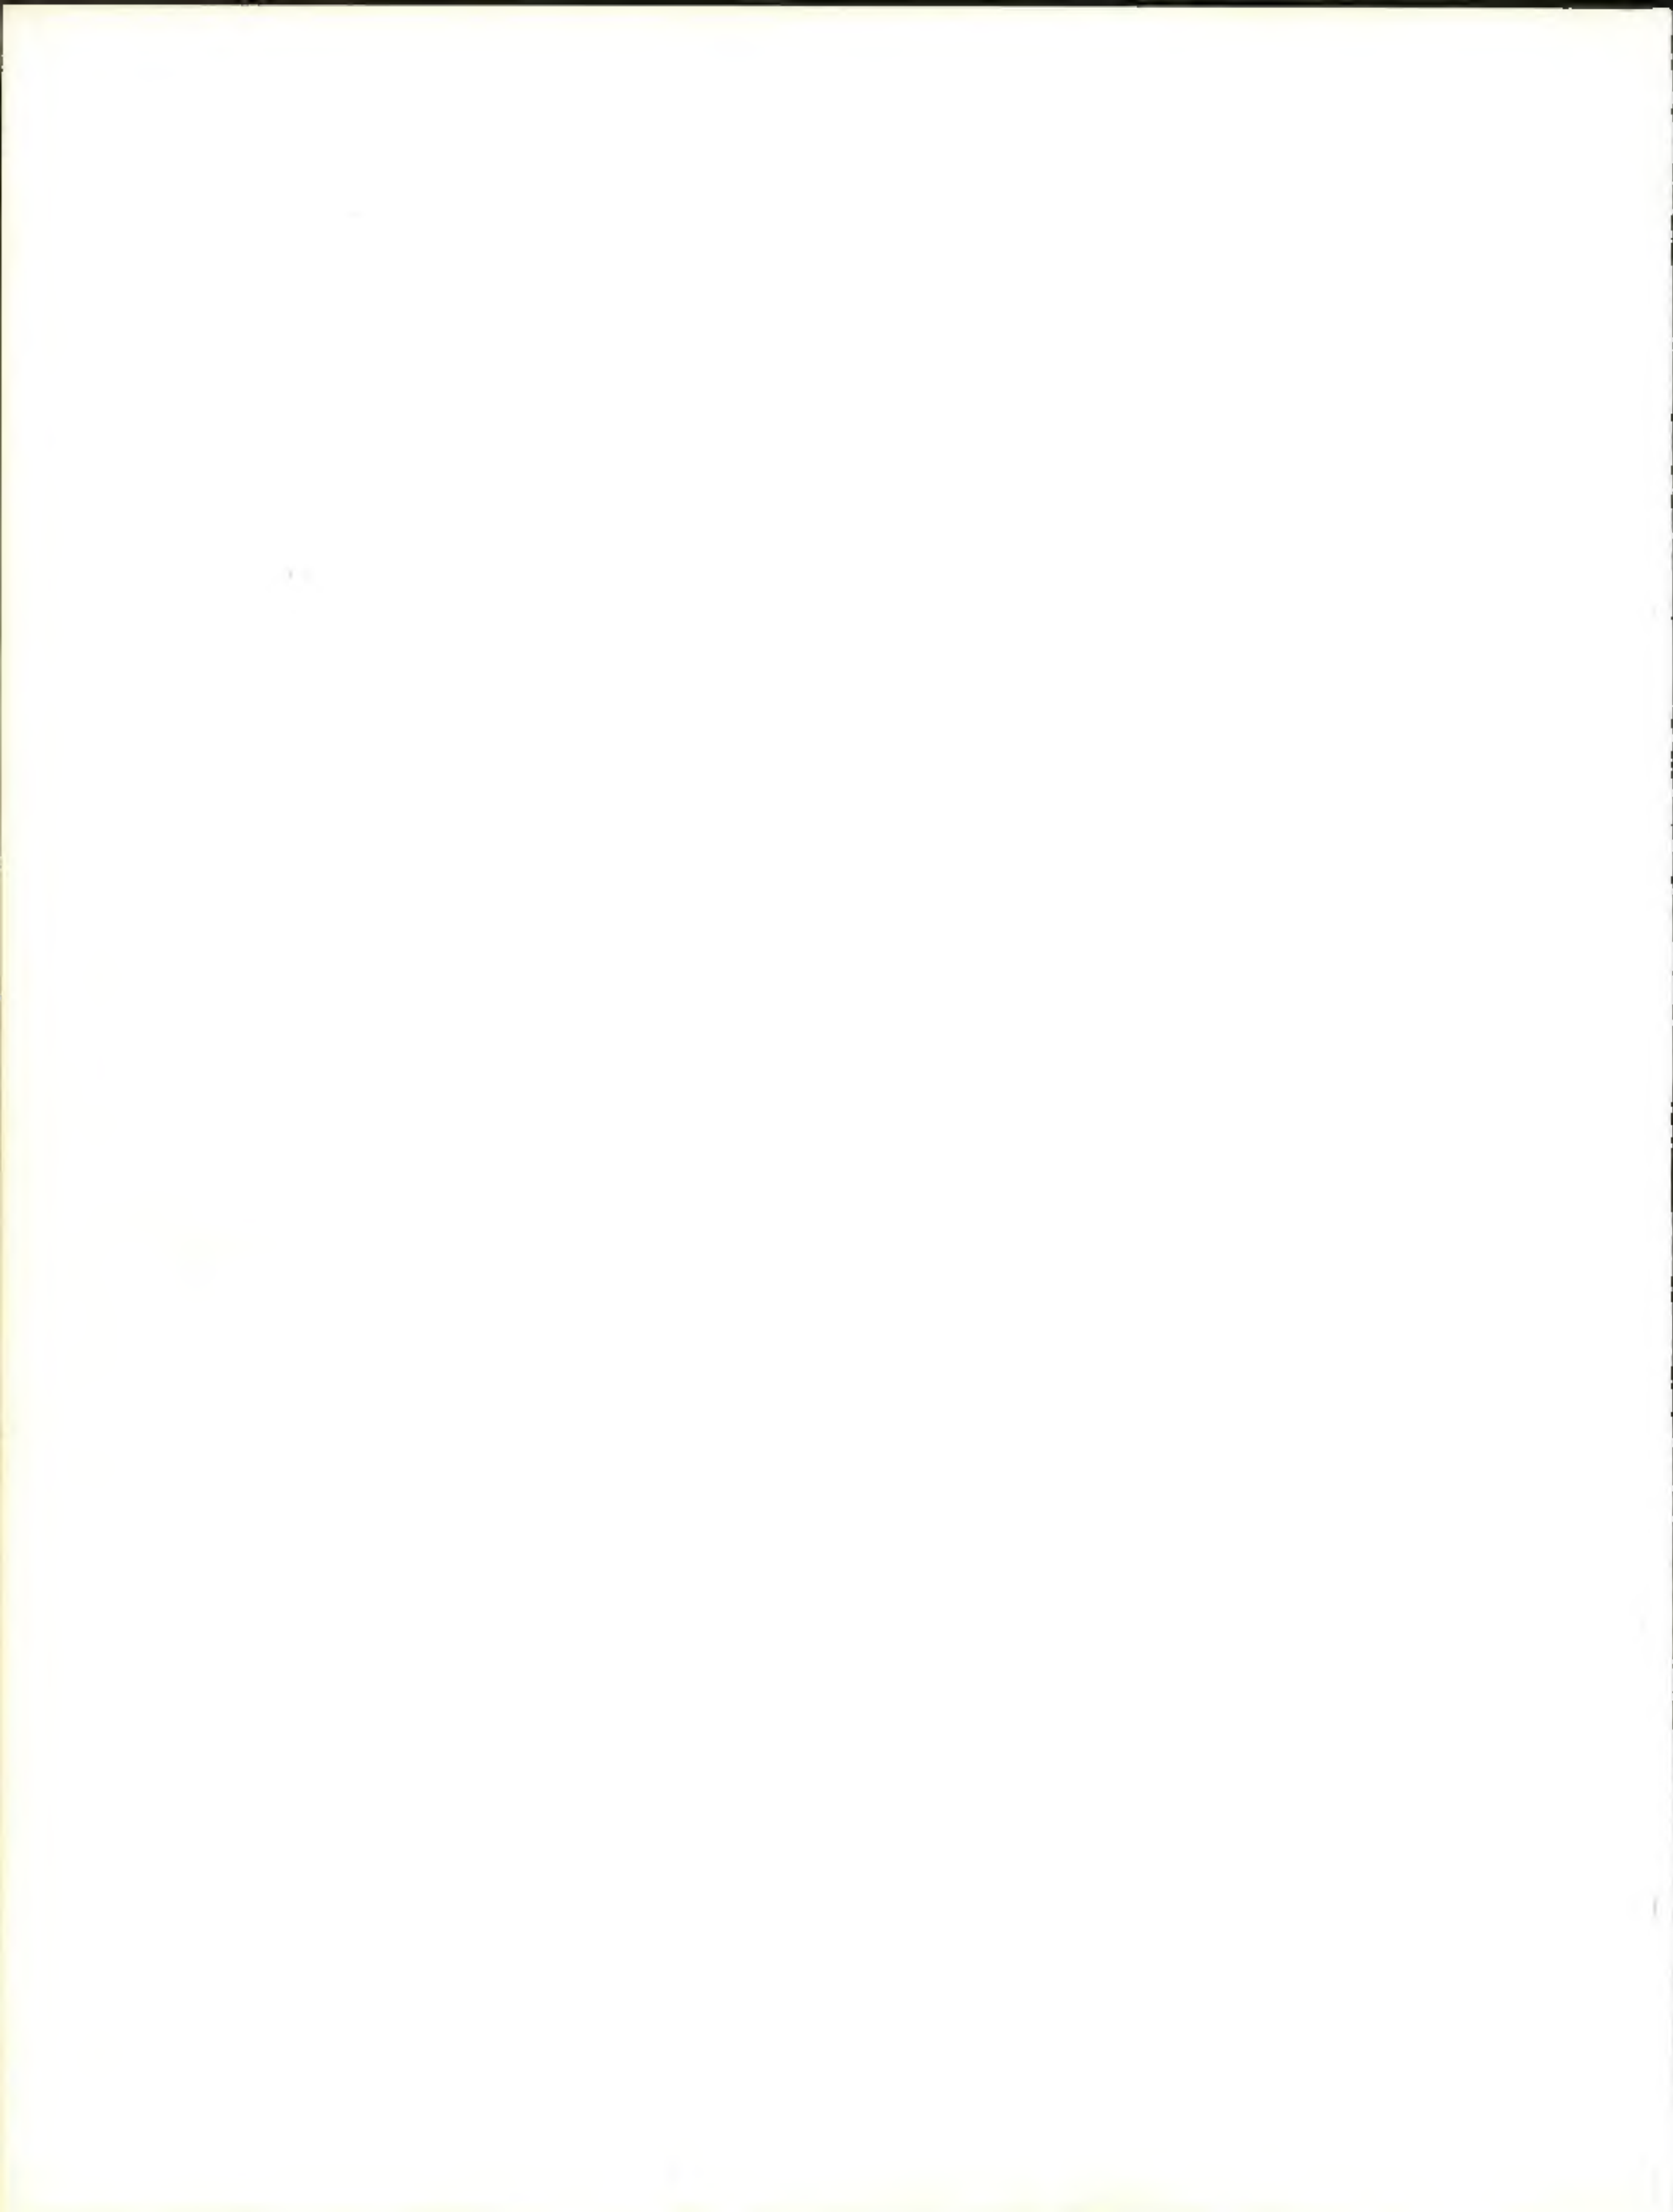

if i listen

i will hear the Sounds of Central again.

*Football is a test of endurance and skill. It is fought with muscle and coordination and strategy. The Central Cougars played hard and won often. Long hours of practice paid off as they eluded tacklers and accumulated yardage, and successfully defended their own goal line. They worked together as a smoothly-functioning team and separately as skilled individuals, always paying the price for victory.*
